AFFAIRS IN GEORGETOWN. the Commissioners Antago-

nized-Other Items. The order of the District Commissioners that the well at 37th street and Prospect avenue be closed has excited considerable antagonism among the property owners in the vicinity, who had the well constructed at their own cost. The well is of the artesian type, and is perhaps the deepest in the city. The flow of water is good, and it has been analyzed and found to be of an exceedingly high grade, possessing many mineral qualities. Some time ago the Commissioners ordered the well to be fixed and placed in operation. The District workmen took the handle away about six months ago to be repaired, it is said, and it has never been returned. Mr. George W. King appeared before the Commissioners this morning and gave reasons why the order should be revoked, and the well put back in its original shape. If the District will not do this the property owners will do it

at their own expense.

Mr. Gasaway Burrows, aged forty-eight, of 1338 32d street, met with a peculiar and painful accident Saturday afternoon. While taking a dose of cough medicine a set of false teeth in some manner slipped down his throat and lodged in the windpipe. He was sent to the Georgetown University Hospital, where Dr. Gwynne succeeded in removing the obstruction.
George Beck, a young man, and a baker

by trade, living on M street near 29th street, while getting off of a Capital Trac-tion Company car about 12 o'clock Saturday night, was thrown down and painfully injured. His face struck the asphalt pave-ment, resulting in a broken nose and a number of lacerations on the face and head. When picked up he was unconscious. He was taken to the Georgetown University

Hospital for treatment.

We did not sell all of our winter overcoatings last week. The weather was disagreeable, you couldn't get out, and if you did go out you were more interested in a mackintosh and umbrella than an overcoat. It may be you jumped on the car to protect yourself against the elements. When we hold a special sale we hold it for your benefit. Our recompense is your good will, and if we please you your future tailoring commands. We don't mind spending a little money to acquaint you with OUR tailoring methods. The better you know us the more you will appreciate us. 'Tis our purpose to please you so well that you will never be satisfied with anything less than a Mertz and Mertz garment. Prove us. \$12.87

will have made to your individual measurement an overcoat of \$20 value, in Beaver, Kersey, Melton or Chinchilla. All desirable colors or black.
